

EOTECH[®] MOUNTS

FLIP TO SIDE MOUNTS

FLIP TO SIDE
MOUNT
(RIGHT HAND DEPICTED)

EOTECH SHOE INTERFACE

PRODUCT OVERVIEW

Wilcox’s GO1 and GO6 Flip Mounts are designed for the EOTECH[®] G23. Flip mounts allow optics to flip to a stowed position for front sight visibility or to a deployed position for magnifier operation. Like our field proven NVG mounts, this reliable Flip Mount utilizes our standard dovetail shoe interface system for quick attachment or detachment of the magnifier without having to remove the Flip Mount from the weapon.

FEATURES AND BENEFITS

- Quick disconnect attaching and detaching of the magnifier to the Flip Mount
- Threaded connectors allow for easy attaching and detaching of the Flip Mount
- Lightweight with field proven dovetail attachment system
- Aluminum construction for increased durability over currently fielded products

SPECIFICATIONS

Material Construction: Lightweight, Aerospace Grade Metal
